V. Outreach

Section VI of the proposed rule details EPA extensive outreach efforts prior to the proposed rule. EPA continued this outreach during the public comment period on the proposed rule (DCN 0111). In particular, EPA held over 30 webinars and meetings with over 1,200 people to discuss the proposed rule.

Upon publication of this notice, EPA will provide a new comment period and will conduct additional stakeholders meetings to further discuss and refine particular aspects of the rule prior to promulgation. Outreach to stakeholders will continue to be supported through the NPDES Electronic Reporting Rule Web site; however, the Web site may be expanded to include more robust rule schedules as the rule nears promulgation, as well as additional rule documentation that may or may not be included as part of the formal docket library. Stakeholders that wish to hold a meeting with EPA should send an email to Messrs. Hudock or Johnston (see **FOR FURTHER INFORMATION CONTACT** section).

Finally, EPA would also continue to provide technical assistance and support to states, tribes, and territories during the transition to electronic reporting. Outreach from EPA to the states, tribes, and territories may be very useful in the identification of specific needs and the development of such assistance, support, and funding. EPA also solicits comment and suggestions on how to reach and inform the broad range of facilities affected by this proposed rulemaking.

VI. Executive Orders 12866 and 13563

SUPPLEMENTARY INFORMATION: On October 9, 2014, we published a proposed rule in the **Federal Register** (79 FR 61164) entitled, “Conditions of Participation for Home Health Agencies” that would revise the health and safety requirements that home health agencies (HHAs) must meet in order to participate in the Medicare and Medicaid programs. Specifically, the proposed requirements would focus on the care delivered to patients by home health agencies, reflect an interdisciplinary view of patient care, allow HHAs greater flexibility in meeting quality care standards, and eliminate unnecessary procedural requirements. In addition, we proposed a set of fundamental requirements for HHA services that would encompass patient rights, comprehensive patient assessment, and patient care planning and coordination by an interdisciplinary team. Overarching these requirements would be a quality assessment and performance improvement program that would build on the philosophy that a provider’s own quality management system is key to improved patient care performance. The objective would be to achieve a balanced regulatory approach by ensuring that a HHA furnished health care that met essential health and quality standards, while ensuring that it monitored and improved its own performance. These changes are an integral part of our overall effort to achieve broad-based, measurable improvements in the quality of care furnished through the Medicare and Medicaid programs, while at the same

time eliminating unnecessary procedural burdens on providers.

We have received inquiries from state-based and national industry organizations regarding the 60 day turn-around time to submit comments regarding this proposed rule. The organizations stated that they needed additional time to respond to the rule due to the complex nature of the proposed revisions. Because of the scope of the proposed rule, and since we have specifically requested the public’s comments on various aspect of the rule in an attempt to benefit from the vast experiences of the HHA provider and patient communities, we believe that it is important to allow ample time for all sections of the public to comment on this proposed rule. Therefore, we have decided to extend the comment period for an additional 30 days. This document announces the extension of the public comment period to January 7, 2015.

Dated: November 24, 2014.

Marilyn Tavenner,

Administrator, Centers for Medicare & Medicaid Services.
